

IMAGE SKINCARE GLOWING HYDRATION PROTOCOL

Does the quarantine have you feeling dull? Maybe you've lost that glow? Fret not, because our GLOWING HYDRATION treatment will bring your skin back to life!

A gentle cleanse with **the MAX™ stem cell facial cleanser** will start to nourish the skin with plant-derived stem cell extracts. **AGELESS total pure hyaluronic⁶ filler** follows to boost hydration and soften the look of fine lines. The finishing touch: an application of **VITAL C hydrating repair crème** to leave your skin smooth, hydrated and glowing!

THE LINEUP:

the MAX stem cell facial cleanser: A luxurious sulfate and paraben-free cleanser that gently cleanses and nourishes the skin.

AGELESS total pure hyaluronic⁶ filler: This topical hydration filler contains six forms of hyaluronic acid for an immediate, noticeable boost of hydration. It helps to soften the appearance of fine lines without an injection.

VITAL C hydrating repair crème: This crème quenches the skin with vitamins A and C to help combat the effects of stress, fatigue and other environmental factors

THE EXPERIENCE:

- 1. Cleanse:** Apply a liberal amount of **the MAX stem cell facial cleanser** to wet hands and rub hands together to achieve a light foam. Cleanse the face for 1 minute and rinse with tepid water.
- 2. Steam (optional):** If you do not have a home steamer, no problem! Try the following: Boil water in the kitchen (add a few drops of your favorite essential oil if you have one) or run very hot water in the bathroom sink. Place a towel over your head to capture the steam. Take nice deep breaths as you allow the steam to open your pores and soften your skin. Steam for 5 - 10 minutes.
- 3. Hydrate and plump:** Apply a liberal amount of **AGELESS total pure hyaluronic⁶ filler** to cleansed skin. After application, use a repeated fluttering motion to lightly tap all areas of the face with fingertips to stimulate circulation.
- 4. Glow:** Apply a liberal amount of **VITAL C hydrating repair crème** while massaging the skin. Start at the forehead and move down to the temples. Massage your nose and cheeks and don't forget the chin and jaw.

Treat yourself to a large glass of water (infused with your favorite fruit or berry) to stay hydrated. Take a long, quiet walk outdoors to breathe in some fresh air (don't forget your **PREVENTION+®**, of course!)
